

Great American Solar Eclipse

August 21st, 2017

Photo taken by NASA.

During the event, ACE was treated by Paula and Johnnie Lee to a day of fun with corn hole and grilled hamburgers and hot dogs. There was even a “tin foil hat” contest where First, Second, and Third place prizes were handed out.

ACE Compressor hosted an “Eclipse 2017” party for the employees and their families. This was a way for all of us to get together and enjoy this once in a life time experience.

While our location was not in the “totality” zone of viewing, this was a great experience the kids will never forget.
